Erastudio Apartment Gallery is a collectible design gallery based in Brera District (Milan) that was founded in a apartment by Arch. Patrizia Tenti in 2010. The influence of Florence Italian "Radical Architecture" as the art critic Germano Celant called this period in 1972, has been crucial for the gallery.

The gallery, accredited in the most important international fairs, develop every time the will to create environments in which the dialogue of the exhibited artworks plays a fundamental role. For long time the architect and artist Nanda Vigo was the exclusive curator of the most exhibitons and fairs for the gallery. The gallery proposes unique pieces, prototypes, limited editions and exclusive projects created by historical radical Architecture protagonist and contemporary masters.
