web site: www.patriziatenti.com

The deep passion for fashion, research, history and houses pushed Patrizia Tenti to mainly specialize herself in marketing retail high luxury fashion and interior villas. In this field she worked as an architect and as a project manager for outstanding Italian companies and fashion stylists, such as *Prada*, *Helmut Lang*, *Ermanno Scervino*, *Neil Barrett*, etc., and often side to side to super star architects such as Rem Koolhaas, Zaha Hadid, Mario Bellini etc.

A long time spent working around the world (USA, Japan, Russia, Ukraine, France, etc.), in 2010 she decided to add to her professional experience her own collectible design gallery and in 2019 her own art gallery. She said: “ it is so beautiful to live with art around you every day”. Her interior projects are always the perfect synthesis of her taste, of her international experiences and of her lifestyle.

A lot of her houses was published in a book and in selected international magazine, such as *New York Times - T Magazine*, *Elle Décor*, etc.
